Calorie Burner

Turn up the heat with Synergy SLMsmart Calorie Burner. This powerful, thermogenic formula combines green tea with a time-released energy blend. Designed to supercharge your metabolism, Calorie Burner helps your body burn more calories and fat throughout the day. For energizing benefits without unwanted side effects, try SLMsmart Calorie Burner today.

BENEFITS

- Supercharges your body's fat burners
- Increases the rate your body burns calories
- Supports weight loss

KEY INGREDIENTS

- *Green Tea Leaf extract* — drinking polyphenol-rich green tea (*Camellia sinensis*) has been linked to good health for centuries. Beyond already documented benefits for cardiovascular health, brain health and healthy aging, the extract's active components— including polyphenols such as epigallocatechin gallate (EGCG) — now show promise for weight loss. Researchers believe green tea may have a thermogenic (calorie-and fat-burning) effect, and also may inhibit fat absorption.

- *Yerba Mate and Guarana Seed Extract* — increase thermogenesis by boosting energy expenditure and metabolism. These two herbs provide completely natural sources of caffeine (20 mg per capsule) that the body utilizes for energy and endurance.
- *Garcinia Fruit Rind* — the rind of a small, pumpkin-shaped fruit native to Southeast Asia, *Garcinia cambogia*, has a long tradition of safe use. Its active ingredient, hydroxycitric acid (HCA), may promote feelings of fullness, helping you consume fewer calories during the day.

RECOMMENDED USE

Take 2 capsules with a meal twice daily.

FREQUENTLY ASKED QUESTIONS

How is SLMsmart Calorie Burner unique?

The Calorie Burner formula has been designed and tested to minimize unwanted side effects and safely maximize weight loss. Synergy ensures the quality of all of its products. Each capsule will meet the highest standards of purity and potency.

How does it work?

Taking two capsules of Calorie Burner twice each day will help your metabolism to function more effectively all day long. An effectively functioning metabolism will speed up the absorption of healthy nutrients taken from Essential Foods, and reduce delays in the fat burning process.

How much caffeine is in this product?

Each capsule contains 75 mg of sustained release caffeine. When taken as directed, Calorie Burner delivers 300 mg of caffeine per day. This would allow someone who already consumes some caffeine in their diet to continue to do so without reaching the

levels considered to be risky or questionable.

Can I take Calorie Burner at night?

It is recommended that you take the Calorie Burner with meals earlier in the day to reduce the risk of sleeplessness.

How much weight can I expect to lose on Synergy's SLMsmart weight management program?

Over the course of 90 days, you can expect to lose at least 10% of your body weight, which is considered a healthy rate for weight loss, optimal for long term results.
